Classic Tofflemire Style System

1946

A reliable system since 1946

SureTact™

Classic Tofflemire Style System

Matrix Band Retainer

Secure locking mechanism and instant release enable the Classic Tofflemire™ Type retainers to tighten and release with precise, effortless action. The clean, smooth surface is free of burrs and sharp edges that can cause gingival trauma. Easy insertion and adjustment; handles any width band. Permits accurate trimming of wider band for special anatomical needs. Contra-Angle model can be used buccally and lingually.

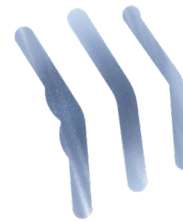

- ▶ Secure locking mechanism and instant release
- ▶ Easy insertion and adjustment
- ▶ Fully autoclavable

Matrix Bands

The Classic Tofflemire™ retainer and band or universal matrix system was introduced in 1940s. This surgical grade stainless steel band is carefully stamped for consistently smooth (burr-free) edges that keep your patient comfortable and reduce risk of gingival trauma. Available in a variety of sizes and contours with .0015 inch thicknesses.

- ▶ Surgical grade stainless steel
- ▶ Smooth (burr free) edges for patient comfort
- ▶ Available in a variety of sizes and contours

Wedge-Wood

These proven wedges ensure better access and stable holding of matrix systems during your critical restorative procedures. Specially crafted from birch wood for greater tooth separation and faster, better tooth position recovery upon removal. Available in four sizes.

- ▶ Better access and stable holding
- ▶ Crafted from real wood for greater tooth separation
- ▶ Faster, better tooth position recovery upon removal
