

# ModuLite™

Modular LED Curing Light System

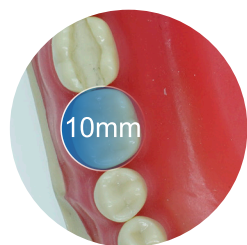

Introducing a cutting-edge modular curing light with Polymerization and Illumination Modes, seamlessly merging convenience and versatility. State-of-the-art optics and four collimated LEDs guarantee uniform power distribution, optimizing the curing process. With one-button operation and a metallic body structure featuring the MaxGrip™ surface, it offers user-friendliness, durability, and effortless handling.

# ModuLite™

Modular LED Curing Light System

Special lens design

## Metallic Structure

Stainless steel and anodized aluminum provides a robust construction that can withstand the rigors of frequent use

## Uniform Power

4 Collimated LEDs design provides a uniform light distribution over the entire curing area. The ModuLite® Curing Light delivers an average irradiance of 1800 mW/cm<sup>2</sup>

## Versatility

This cutting-edge modular curing light equipped with polymerization and detection modes, seamlessly merging convenience and versatility. This cutting-edge modular curing light equipped with polymerization and detection modes, seamlessly merging convenience and versatility.

## Simplicity

Simplicity is at the forefront with the one-button design, ensuring easy operation. Additionally, the 10mm curing tip works to minimize curing time, optimizing efficiency

## Multifunctional charging base

The ModuLite® features a sleek charging base that incorporates a built-in Radiometer to ensure effective curing. The intuitive battery system includes two quick connect batteries, ensuring constant availability for uninterrupted usage. It provides 200 curing with just a single charge, guaranteeing convenience and efficiency throughout the day.

## Technical Specification:

<b>Power</b>	AC100-240V / 50-60Hz
<b>Battery</b>	Lithium-ion (3.7V 300mAh)
<b>Wavelength Range</b>	380-520 nm
<b>Wavelength Peak</b>	455 nm ± 10 nm
<b>Light Intensity</b>	1600 mW/cm <sup>2</sup> ± 10%
<b>Total Exposure Time (fully charged battery)</b>	Approx. 200 (10-second cures)
<b>Charging Time (depleted battery)</b>	Approx. 2 hours
<b>Dimensions</b>	Diameter 13 mm, Length 197mm
<b>Weight</b>	75.5g

## Order information

- M1042 ModuLite™, LED Curing Light System
- M1043 Battery Refill
- M1044 Cure Tip Refill
- M1045 Sleeves Refill (100)
- M1046 Eye Protection Shields Refill (3)
- M1047 Power Connector Refill
